

Welcome

To the Children's Environmental Health On-Line Training!

We are excited to be able to offer you this unique training opportunity.

The on-line training is divided into different modules with a test required at the end of each module. Don't worry it's an open computer test where all the answers can be found within the module. You will need to print the test before you get started. Contact hours will be given if you pass the end of module test. The hours will only be given every three years for the on-line training unless there has been a revision of a module or new modules have been added. Each module is worth 2 contact hours.

After you have completed the test you will need to mail it back to us for grading along with a check made out to: Guilford County. A fee of \$20.00 will be charged for each module (Guilford County residents do not have to pay). If you are taking several modules, one check can be made out for the total amount.

Send it to:

Guilford Co. Dept. of Public Health
Environmental Health Division
1203 Maple St
Greensboro, NC 27405
Attn: Paula Cox

Fill out the top portion of the test and include a self addressed stamped envelope for us to mail your certificate back to you. *If we do not receive the fee and/or a return addressed stamped envelope you will not receive your certificate(s)!*

GOOD LUCK!

TEST FOR MODULE 5

You will need to fill out the declaration of intent. Failure to do so will result in test not being graded and returned to you.

Declaration of intent

I declare that I am the person that filled out the answers to the test questions to the best of my ability and that I am the person to receive the contact hours.
