

**GreenTip**  
How Do You Measure Up?

## **REDUCE – REUSE – RECYCLE:**

### **Participate in the McLeansville Lions Club 8<sup>TH</sup> Annual Antique Tractor Show and Community Yard Sale**

Yard sales are a great means of making sure that **reusable** items and materials are saved from the landfill, thereby reducing the amount of waste we generate. **Reusing** and **recycling** used items instead of buying new saves money by **reducing** the purchase price and also saves the energy and materials that go into the manufacture of new products. So, participate in yard sales in your neighborhood and around the county. Remember, you'll be putting the dollars you spend back into our community.

Check out this event, sponsored by the McLeansville Lions Club, where you can shop for good deals, have lots of fun and make donations that will help others.

**When: Saturday, October 3rd, 2009 - begins at 7:00 a.m.**

**Where: McLeansville Lions Club, corner of Mt. Hope Church and Burlington Roads, McLeansville**

#### **What:**

Community yard sale, featuring an ongoing 50/50 raffle. Donate your old and used eyeglasses, hearing aids, Campbell soup labels and ink cartridges for the benefit of those in need. Stop by to see the antique tractors on display, and check out the Guilford County Recycling Booth to test your skills at recycling and to meet PETE! Click here to view the [event flyer](#).

If you'd like to man your own booth at the yard sale, contact Ray Stone at 697-1619 for more information and to reserve your spot, or send an e-mail to: [lionsclub@mcleansville.org](mailto:lionsclub@mcleansville.org).
